## **DETAILED ACTION**

### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are informal and of poor quality. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Examiner's Amendment***

#### ***Title Change***

2. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the Issue Fee.

3. Pursuant to MPEP 606.01, the title has been change to read: --DYNAMIC SUBJECT INFORMATION GENERATION IN MESSAGE SERVICES OF DISTRIBUTED OBJECT SYSTEMS IN A SEMICONDUCTOR ASSEMBLY LINE FACILITY--.

4. Authorization for this Examiner's amendment was given in a telephonic interview with Mr. Kahng on 8/14/06.

5. Cancel claims 1-66.

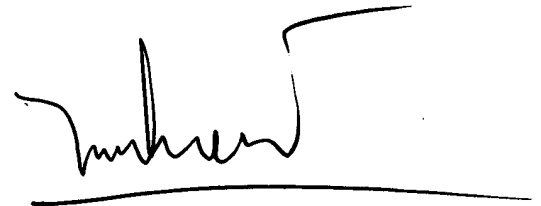

*Allowable Subject Matter*

6. Claims 67, 69-73, 75-82 are allowed.
7. The following is an examiner's statement of reasons for allowance: independent claim 67 teaches a semiconductor assembly line facility with a publisher client that creates a message having subject information and content information that generates the subject information based on the content information as the message is being created, generates the subject information by appending a changeable portion to fixed portion of the subject information, and the server that forwards the message based on the subject information.
8. The closest prior art of record, MS Message Queue Server by Microsoft, Todd, and Tatsumi, does not teach appending a changeable portion to fixed portion of the subject information, then forwarding the message based on the subject information in an assembly facility. Therefore, independent claim 67 is allowable over the prior art.
9. Claims 69-73, 75-82 are allowed by the same rational as well as the further limitations added by these dependent claims.
10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
